

Prep Instructions for Axumin PET/CT Scan

Pre-Test

- Refrain from consuming anything except water for 4 hours leading up to your appointment.
- Abstain from vigorous physical activity for 24 hours before your appointment.
- Attempt to empty your bladder before or immediately after you arrive at the office. We cannot begin the scan until at least 30 minutes after the last time you emptied your bladder.

If you require assistance to transfer with the aid of a family member, friend, or facility member, please notify us promptly. Failure to do so may result in the need to reschedule your appointment.

Post-Test Precautions

- Limit contact with children and pregnant women for 24 hours after the test.

For questions about your appointment, please call our office during regular business hours at 518-269-3074.
